

*Is there a place in Maine
where smart
investing and
helping your
community
intersect?*

Yes

Since 1994 the
Genesis Fund has
worked as the
creative catalyst

to assist and fund 131

affordable housing and community development projects
across Maine. **Genesis seeks groups of people who are
inspired and committed to make their communities
better places to live. Got an idea? We can help!**

To provide that assistance, Genesis also seeks individuals
and institutions looking for ways to do good work *and* make
a smart investment. With a record of 100% payback on \$9
million in loans and more than \$65 million in additional funds
leveraged, **Genesis has proven that we deliver to both
our borrowers and our investors.**

**Looking for the place where
smart and good can meet?**
